

## ACM ASPLOS 2027

April 11 – April 15, 2027 Herklion, Crete, Greece

<https://asplos-conference.org/>

### Sponsorship Opportunities

**ASPLOS is the premier international forum for interdisciplinary systems research, intersecting computer architecture, hardware, and emerging technologies, programming languages and compilers, operating systems, and networking.**

In 2027, ASPLOS will host research articles on ground-breaking research in architecture, programming languages, operating systems, and related areas. The importance of all-round systems research continues to increase as we grapple with the slowing transistor scaling, the explosion of big data and ML, the need for enhanced privacy and security, and the growth of human-centered applications and wearable gadgets. ASPLOS embraces systems research, cutting across the layers of the computing stack to address new problems in innovative ways. Moreover, ASPLOS is known to bring together the best minds on systems research from around the world.

**The ASPLOS 2027 organizing committee kindly requests you and your company to support ASPLOS 2027.** Sponsoring ASPLOS provides an excellent branding opportunity that increases name recognition among academic and industrial members working in these areas. ASPLOS is a prominent venue for recruiting and maintaining a pipeline of well-trained students, many of whom will become academic leaders and prominent industrial researchers and developers in the future. In the past, industry participation and support for both venues has been a crucial aspect of their success. The table below describes the sponsorship levels and their respective privileges.

Sponsorship level	Platinum	Gold	Silver	Bronze
<b>Donation</b>	<b>\$30,000</b>	<b>\$20,000</b>	<b>\$10,000</b>	<b>\$5,000</b>
